OF THE WORKSHOP & ITS CRAFT

A short account of the house, addressed to the trade.

Brass & Wood is a furniture manufacturer before anything else — complete salons, dining rooms, bedrooms and executive offices, carved in solid beech and walnut and built to order in our Cairo factory. The house began in the 1970s as a specialized décor workshop, and that brass heritage still runs through every piece: cast mounts, engraved ornament, and lighting made in the same hands.

For more than fifty years our artisans have worked solid hardwoods, natural brass, crystal, porcelain and marble — carcasses carved by hand, natural brass cast and engraved in-house, and 22-karat leaf gilt finished with hand-applied patina. Each piece is made individually; no two are identical.

From our headquarters and factory in Cairo, and a showroom in Sharjah, UAE, the workshop today serves clients in more than 15 countries — offering OEM, private-label, and bespoke manufacture for boutiques, wholesalers, and large-scale projects.
